

CCOP – KIGAM Unconventional Oil and Gas Project:

Mapping of Black Shale Formations for the Prediction of Shale resources (**UnCon Project**)

Project Launching, Conference and Technical Meeting

9-12 June 2015, Gyeongju City, Korea (**M2**)

A. Background and Objectives:

The CCOP Technical Secretariat in cooperation with Korea Institute of Geoscience and Mineral Resources (KIGAM) will be conducting the subject event (UC-M2) in Gyeongju City, Korea on 9-12 June 2015. The aims are to officially launch the Project and conduct a technical discussion with main agenda focused on shale resource mapping and characterization. Experts from the USGS, Korea and from CCOP member countries will be invited as resource persons.

B. Participants and Resource persons:

1. Representatives from oil and gas regulatory and supervisory agencies, research organizations, national oil and gas companies, geological agencies, environmental agencies, and academic institutions of CCOP member countries.
2. Resource persons from USGS, Korea and other CCOP member countries.

C. Venue and Date: K Gyeongju Hotel, Gyeongju City, Korea (9-11 June 2015) and Field trip in Gyeongju City and vicinity (12 June 2015).

D. Implementing / coordinating organizations

1. CCOP Technical Secretariat
2. KIGAM
